

## Our offer, your future.

Delta Engineering is the European market leader in factory automation for the blow moulding industry. Started as a two-man business in 1992, today the company is working with more than 50 qualified and dedicated employees.

Together we develop a wide range of innovative and efficient quality machines in close cooperation with our customers. In this way we guarantee a stable position on the market and a promising future for our company and our employees. To guarantee our further development, we are looking for a (m/f).

# CNC programmer/Operator turning milling

## Your devotion

- To strengthen our team, we are looking for an experienced CNC programmer/operator for our CNC department. This person is responsible for the programming and operation of the CNC turning and milling machines.

## Your talents

- You have at least 5 years of experience within a similar position or working environment.
- You can work independently and have a sense of initiative.
- You are able to create cnc programs based on drawings.
- You have a flexible attitude (keep track of several machines).
- You are prepared to work in an adjusted timetable and shift system.

## Our offer

- We offer you job security and a varied job within a young, growing company and an enthusiastic team. You work for a financially healthy company with a leading name and a clear vision of the future.
- You can count on continuing education.
- Your salary is in proportion to your profile and experience.
- We offer you a group insurance, hospitalization insurance and meal tickets.

## Your future?

Then we would like to receive your application together with your CV! You can send your application by email to [hr@delta-engineering.be](mailto:hr@delta-engineering.be) or by postal service to the attention of Mr. Glenn Van Nuffel.
